Welcome letter

Dear Colleagues & Friends,

We would like to welcome you to the 13th Middle East Update in Otolaryngology.

We are proud to provide the largest and longest running educational meeting for Otolaryngologists and allied healthcare providers in the Middle East. I believe that our 2016 meeting will be an exceptional edition, with tremendous depth of programme across the wide spectrum of our specialty.

We are extremely honoured to be hosting the 1st World Congress on Cochlear Implants in Emerging Countries alongside our Otolaryngology meeting. The programme has been produced by a renowned steering committee who are focused on improving access to cochlear implants in third world and developing countries.

This year we are delighted to welcome to Dubai the Kenyan Ear Nose and Throat Society as the Guest Society and the University of Nairobi as the Guest University.

Given the success of the Young Otolaryngologist Day in 2015, The Middle East Academy of Otolaryngology is proud to be sponsoring, for the fifth year, the travel and accommodation of up-and-coming residents from across the globe to present their research papers on the third day of the conference.

We would like to give our sincere thanks and gratitude to our Activity Director, Dr Michael Benninger, Chair of the Head and Neck Institute at Cleveland Clinic, and Professor of Surgery at the Cleveland Clinic Lerner College of Medicine, Cleveland, Ohio, USA.

We look forward to welcoming to you at our new location, the Dubai International Convention & Exhibition Centre.

Kind Regards

Ahmad Alamadi MD and Muaaz Tarabichi MD
Conference Co-Chairmen

Accreditation Statement

The Cleveland Clinic Foundation Center for Continuing Education is accredited by the Accreditation Council for Continuing Medical Education to provide continuing medical education for physicians.

The Cleveland Clinic Foundation Center for Continuing Education designates this live activity for a maximum of 25.0 AMA PRA Category 1 Credits™. Physicians should claim only the credit commensurate with the extent of their participation in the activity.

Participants claiming CME credit from this activity may submit the credit hours to the American Osteopathic Association for Category 2 credit.
The exhibition
The 13th Annual Middle East Update in Otolaryngology Exhibition will be held from 24-26 May 2016 at the Dubai International Convention & Exhibition Centre, Dubai, UAE. More than 70 leading international companies will showcase and demonstrate the latest technologies, products and services available to the ENT and Audiology industry.

The Middle East Update in Otolaryngology Conference & Exhibition is the largest gathering of ENT specialists within the entire Middle East region, offering a unique platform to network with key experts and practitioners on both a regional and international level.

Otolaryngology Masterclass ‘What every otolaryngologist needs to know’

The Otolaryngology Masterclass has been designed as a guide to highlight conference topics which we deem to be essential to any otolaryngologist’s knowledge bank. Attend the highlighted sessions to hear from the experts and ensure you are up to speed with what every otolaryngologist needs to know and apply in daily practice.

Who attends
- Otolaryngologists
- Ear Surgeons
- Rhinoplasty Specialists
- Audiologists
- Speech / Language Pathologists
- Endoscopic Surgeons
- Paediatric Surgeons
- Rhinologists
- Endocrinologists
- Sleep Specialists

Benefits of attending
- Develop diagnostic expertise and strategies to diagnose and treat sensorineural hearing loss in children and adults.
- Discuss the latest information in cochlear implant surgery; including techniques, difficulties, funding problems and post-surgery rehabilitation programmes.
- Discuss the latest information on the surgical management of obstructive sleep apnea.
- Identify the indications, management options and potential complications of contemporary surgical techniques used in nasal, endoscopic sinus, and skull base surgery.
- Discuss the role of human papilloma virus in head and neck cancer, and how it should be managed.
- Discuss how to diagnose and manage common paediatric otolaryngology problems.
- Define the principles of functional, ethnic and reconstructive rhinoplasty surgery.
